## **Choose home delivery prescriptions to get the safety and convenience you need ... at home.**

Because the University System of Georgia wants the best for our employees, in 2014 we've selected home delivery as the preferred way for our employees to get maintenance medications – prescription drugs taken regularly to treat ongoing conditions. By using home delivery, employees save money and stay healthy and prescription drugs cost less. This helps keep healthcare premiums low for everyone!

The benefits to using Home Delivery are:

- **Better Health Care:** Members using mail order take their medication more consistently than those who use retail
- **Better Safety:** Mail order has a 99.99% dispensing accuracy vs. 98.3% at retail
- **Lower-Cost:** Members save money and the plan saves money because of deeper discounts through mail order
- **Worry-Free Fills** – Medications are auto refilled so doses aren't missed due to busy schedules
- 24 hrs / 7 days a week Customer Service and Pharmacist available for a private conversation
- Extended Payment Program
- Up to a 90 day supply
- Free Shipping

**In 2014, members enrolled in the OA POS plan using maintenance medications at retail must make a decision on how to receive maintenance prescription drugs – through home delivery or retail prior to the third refill. If a decision is not made by the third refill, members will be required to pay the full price of the prescription until a decision is made. We want all of our employees and their dependents to be aware of the savings and health benefits available to them through mail order!**

To make the decision about mail order, visit the Express Scripts website at [www.Express-Scripts.com/Decide](http://www.Express-Scripts.com/Decide) or call Express Scripts at **877-603-1032**, Monday – Friday, 8:30 a.m. to 6 p.m., Eastern. Express Scripts will make the transition to mail order easy by contacting your doctor to get a new 90-day prescription on your behalf.
